ADA
HEALTHCARE SOLUTIONS

The Hospital of the Future...Today

ADA Security was established in 1991 and for most of that time we have worked with the **HSE** delivering best quality products and solutions together with our total commitment to provide you with the best service in the industry. Our engineers are always on call and we can guarantee you same day response and now for the **1st time you can have one engineer look after all your security and patient safety systems.**

Why Buy From ADA Healthcare Solutions

- ADA has over 20 years of experience working with the HSE
- Now, for the 1st time, one supplier to look after **Patient Wander**, **Nurse Call**, **Staff Duress**, **Paging Systems**, **CCTV**, **Access Control**, **Asset Tracking** and **Baby Tagging**
- Competitive same day service & lower priced Service Contracts
- Experienced engineers, locally based
- One phone number to call for everything related to Patient Safety and Security

Asset Tracking & Location

ADA
SECURITY SYSTEMS

Tag it, Find it, Count it and Manage it all from a Simple Cloud-based Platform

ASSET TRACKING & MANAGEMENT

Always know where your essential equipment is, and where it's been. Eliminate loss and theft – you can automatically lock exits if a valuable item is being taken from the building. You can even manage and track servicing and calibration, and drug expiration dates for medical inventory.

PATIENT MONITORING

INFANT SECURITY

Our tags are **small, light and comfortable** with the best **infection control** design in the industry. Only tag available with **Dual-Tamper alert** making it impossible to remove them without setting off an alarm event but also **eliminates nuisance alarms.**

PATIENT WANDER

Our tags are the smallest and lightest in the industry with a strong yet comfortable **tamper proof strap**. Real time patient location (inc photograph). **Simple and fast 2 step enrolment** and discharge with patient photograph.

STAFF SAFETY

Precise location allowing for rapid response where every second can be vital. Smart RFID offer a solution for every situation from simple assistance alarms to high risk psychiatric applications and man down systems.

NURSE CALL

We install both wired and wireless Nurse Call systems which integrate seamlessly with all other hospital systems and can be quickly and easily installed with minimal disruption.

CCTV & ACCESS CONTROL

We offer IP and HD CCTV systems with the highest resolution therefore reducing the amount of cameras that would be needed traditionally.

Our Access Control systems range from the smallest single stand-alone door to the most complex Multi-Door, Multi-Site Management Control Systems.
